

MEDIA CONSENT AGREEMENT AND RELEASE

UTS Women in Engineering and IT delivers STEM programs to increase the participation of girls in STEM study and careers. Our programs include in-curriculum programs at your child's school or extra-curricular programs, often run in the school holidays. To share your child's creations with you and other girls and families, we will be taking photos and videos during the program. This consent form is seeking permission to use photos and videos of your child. You do not need to agree to this for your child to participate in any of our programs.

UTS Women in Engineering and IT STEM Programs

I _____ (print parent/guardian name) consent for photos and videos of my child _____ (print child name) to be used by the University of Technology Sydney on the following conditions;

1. University of Technology, Sydney has the absolute right of ownership of the photographs and videos in which your child appears.
2. University of Technology, Sydney will be entitled to publish, distribute and use the information about my child's work or photographs of my child in communications about the STEM Design Challenge, and, in addition may make such changes, adaptations, arrangements, substitutions, deletions and additions of, from, in and to photographs or videos as it thinks fit. In exercising these rights, the university agrees not to cause changes to be made to the photographs/videos that are of a derogatory nature.

I understand that nothing shall require the University of Technology, Sydney to include the interview/photographs in any of its publications.

I hereby release you, your employees, affiliates, licencees, agents and assignees, from any and all claims, demands and suits that I may have arising out of the photography, videography, publication or this agreement.

Date: _____

Signature: _____
